

MARIMEKKO

Consumer Durables/Finland, May 13, 2022 News Flash

Q1 result topped our estimates

Marimekko came in strong with Q1 net sales as well as EBIT growing rapidly. The company's resilience to weakened consumer confidence was stronger than we were expecting.

- Q1 group result: topline increased by 24% y/y to EUR 36.0m (EUR 30.4m/32.4m Evli/cons.) beating our and consensus estimates. Net sales growth was driven by solid development of wholesale and retail sales in Finland as well as good performance of int'l sales. Adj. EBIT improved to EUR 6.6m (EUR 3.9m/3.9m Evli/cons.), being 18.4% of revenue. Weakened relative profitability was driven by increased material and fixed costs. On the other hand, EBIT was supported by topline growth and lower D&A. EPS amounted to EUR 0.12 (EUR 0.08/0.08 Evli/cons.).
- **Finland:** net sales grew by 27% y/y to EUR 18.5m (Evli: EUR 15.2m). The growth was driven by both retail (+18% y/y) and wholesale sales (+41% y/y).
- Int'l: revenue saw an increase of 20% y/y, amounting to EUR 17.5m (Evli: EUR 15.2m). Good sales development was driven by all market segments. Topline grew strongly in the EMEA region (+34% y/y), North America (+26% y/y), and Scandinavia (+23% y/y) while the growth in the APAC region was more moderate with an increase of 10% y/y.
- 2022 guidance reiterated: Topline is expected to be above that of the comparison period (2021: EUR 152.2m) and adj. EBIT margin to be between 17-20% (2021: 20.5%).
- Outlook: although consumer confidence has been in a trend of decline, it seems that Marimekko has enjoyed still solid demand in Q1. The company expects retail, license, and wholesale sales to grow in 2022. In percentage terms, Marimekko estimates the net sales growth to be stronger at the beginning of 2022 than in H2.

Important Disclosures

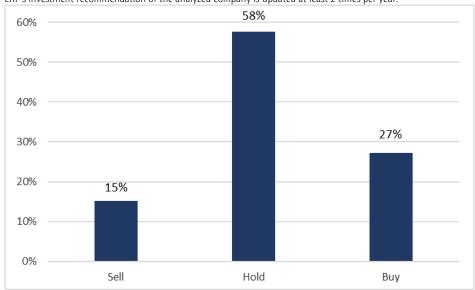

Evli Research Partners Plc ("ERP") uses 12-month target prices. Target prices are defined by utilizing analytical techniques based on financial theory including (but not limited to) discounted cash flow analysis and comparative valuation. The selection of valuation methods depends on different circumstances. Target prices may be altered on the basis of new information coming to light in the underlying company or changes in interest rates, changes in foreign exchange rates, other securities prices or market indices or outlook for the aforementioned factors or other factors that may change the conditions of financial markets. Recommendations and changes by analysts are available at <u>Analysts' recommendations and ratings revisions</u>.

Investment recommendations are defined as follows:

Target price compared to share price Recommendation

< -10 % SELL -10 - (+10) % HOLD > 10 % BUY

ERP's investment recommendation of the analyzed company is updated at least 2 times per year.

The graph above shows the distribution of ERP's recommendations of companies under coverage in 11th of May 2020. If recommendation is not given, it is not mentioned here.

Name(s) of the analyst(s): Heikura

This research report has been prepared by Evli Research Partners Plc ("ERP" or "Evli Research"). ERP is a subsidiary of Evli Plc. Production of the investment recommendation has been concluded on 10.5.2022, 17:55. This report has been published on 13.5.2022, 9:10.

None of the analysts contributing to this report, persons under their guardianship or corporations under their control have a position in the shares of the company or related securities.

The date and time for any price of financial instruments mentioned in the recommendation refer to the previous trading day's closing price(s) unless otherwise stated in the report.

Each analyst responsible for the content of this report assures that the expressed views accurately reflect the personal views of each analyst on the covered companies and securities. Each analyst assures that (s)he has not been, nor are or will be, receiving direct or indirect compensation related to the specific recommendations or views contained in this report.

Companies in the Evli Group, affiliates or staff of companies in the Evli Group, may perform services for, solicit business from, hold long or short positions in, or otherwise be interested in the investments (including derivatives) of any company mentioned in the publication or report.

Neither ERP nor any company within the Evli Group have managed or co-managed a public offering of the company's securities during the last 12 months prior to, received compensation for investment banking services from the company during the last 12 months prior to the publication of the research report.

ERP has signed an agreement with the issuer of the financial instruments mentioned in the recommendation, which includes production of research reports. This assignment has a limited economic and financial impact on ERP and/or EVIi. Under the assignment ERP performs services including, but not limited to, arranging investor meetings or –events, investor relations communication advisory and production of research material.

ERP or another company within the Evli Group does not have an agreement with the company to perform market making or liquidity providing services.

For the prevention and avoidance of conflicts of interests with respect to this report, there is an information barrier (Chinese wall) between Investment Research and Corporate Finance units concerning unpublished investment banking services to the company. The remuneration of the analyst(s) is not tied

directly or indirectly to investment banking transactions or other services performed by Evli Plc or any company within Evli Group.

This report has not been disclosed to the company prior to its dissemination.

This report is provided and intended for informational purposes only and may not be used or considered under any circumstances as an offer to sell or buy any securities or as advice to trade any securities.

This report is based on sources ERP considers to be correct and reliable. The sources include information providers Reuters and Bloomberg, stock-exchange releases from the companies and other company news, Statistics Finland and articles in newspapers and magazines. However, ERP does not guarantee the materialization, correctness, accuracy or completeness of the information, opinions, estimates or forecasts expressed or implied in the report. In addition, circumstantial changes may have an influence on opinions and estimates presented in this report. The opinions and estimates presented are valid at the moment of their publication and they can be changed without a separate announcement. Neither ERP nor any company within the Evli Group are responsible for amending, correcting or updating any information, opinions or estimates contained in this report. Neither ERP nor any company within the Evli Group will compensate any direct or consequential loss caused by or derived from the use of the information represented in this publication.
