

## EVLI JAPAN B UNIT SERIES, GROWTH UNIT , PAST PERFORMANCE OR VALUE DEVELOPMENT

This chart shows the fund's return as a percentage loss or gain per year over the last 10 years relative to its benchmark. It can help to assess how the fund has been managed in the past and compare it with its benchmark. Past performance does not allow reliable assumptions to be made about future performance or value. Markets may develop very differently in the future.

The fund unit series commenced operations on 25.8.2005. The Fund's investment strategy has been changed on 30.9.2011 and the previous return achieved before the change has thus been achieved in circumstances that no longer apply. The return shown is net of recurring charges. Historical returns are calculated in euros. The benchmark index for the fund's return is MSCI Japan TR Net Index (USD).
